

I would like to comment on the LPFM stations you are considering prioritizing over the current FM translator stations, specifically K-LOVE. This station is one of the very few stations around the country that keeps its entire broadcast family friendly. I find it sad that good, moral broadcasting stations are being jeopardized by these LPFM stations. K-LOVE offers the answers this country needs to get back on its feet, please do not let the LPFM stations take priority over the FM translators.

Sincerely,

Darren Carlson
